

# Concentric Circles

Guide to Speaking order and Movement order

Topic:	1	2	3	4	5	6
Speaks 1 <sup>st</sup> :	Out	In	Out	In	Out	In
Speaks 2 <sup>nd</sup> :	In	Out	In	Out	In	Out
Moves:	Out	In	Out	In	Out	In

Both Inside and Outside Circles move in the same direction—either one seat to the right or one seat to the left. It doesn't matter. What matters is that they are the same—because when they are facing each other both moving to the right or both moving to the left means they are moving away from each other which is what we want.

Good luck and have fun!
